Blaine's Followers Becoming Very Bold.

California is Expected to Go to Him With a Rush.

Estee and Alger Named for Second Place on the Ticket.

Other Political News-The Indiana Pec ple's Party Put Up a Ticket and Demand the Free Coinage of Silver.

NEW YORK, May 27 .- | By the Assoclated Press.] The Blaine feeling has taken a decidedly bold movement. Senator Pettigrew of South Dakota has evidently got his bearing. He said tonight that he confidently believed Blaine would be nominated on the first ballot, and that the South Dakota dele gation will cast part of its first vote for Blaine. He will get eighteen out of the forty-eight delegates; four from North Dakota, half of the Minnesota delegation, five from Nebraska and six from Montana. California will go to him with a rush, and other States will follow suit.

J. M. Ashler, a pronounced Blaine man, said the Pacific Slope should have a place on the ticket, and he thought Blaine and Estee would sweep the country.

J. Sloat Fassett thought Estee a good nan. The Pacific Slope ought to get what it wants, but Estee is not a sol dier, and the candidate for Vice-President must be a Western man and a soldier. He thought Gen. Alger & very popular man.

The reporter asked if Fassett was prepared to say that Blaine would accept the nomination if he received 451 votes. Fassett said he didn't ask Blaine, but does not think he would accept under those circumstances.

PEOPLE'S PARTY.

The Indiana Followers Put up a Ticket-Free Silver Demanded. Indianapolis, May 27.—[By the Associated Press.] The State- convention of the People's party was held today with about 800 delegates present. The report of the Committee on Resolutions was read and a Randolph county delegate read a minority report on the tem-perance question, which created an up-

oar.
The chairman of the Committee on

The chairman of the Committee on Resolutions stated that nine members had opposed the prohibition plank and four favored it. He urged them to be leaders, not followers. By an immense majority the temperance plank was excluded from the platform.

The financial plank demands a national currency, safe, sound and fiexible, issued by the General Government only, to be full legal tender, and that without the use of banking corporations. It demands the free and unlimited coinage of silver, condemns President Harrison for calling an International Monetary Conference and inviting other nations to assist us in fixing the value of silver; declaring it an effort to demonetize the silver dollar by an international agreement. A graduated in come tax is demanded.

The convention nominated the following ticket: Governor, Leroy Templeton; Lieutenant-Governor, Dr. J. A Houser; Secretary of State, Jesse L Hobson; Auditor of State, Lewis Gaston; Treasurer, Townsend Coke; Attor-ney-General, E. H. Vernandez; Super-intendent of Public Instruction, J. H. Naw York, May 27.—[By the Associated Press,] W. D. Brickell, proprietor of the Columbus (O.) Dispatch, was seen today in regard to the letter recently published purporting to be from Gen. Grant to Roscoe Conkling. He said that last May George Shepard Page of New York, when visiting Columbus, showed him a letter one day which he asserted was an original and genuine letter from Grant to Conkling. As near as those in the office could determine the letter was an original. Page allowed a copy to be taken, but insisted that it should not be published at that time. He said he came by the letter by a "combination of luck, strategy and questionable methods."

Brickell happened to run across the copy a couple of weeks ago, and as Page is now dead he thought there could be no objection to publishing it, and brought if out without thought as to its political bearing.

KIDNAPERS.

Another Arrest Growing Out of the Oberlander Affair.

a Jailed on the Charge of Hav ing Instigated the Mexicans to Com-mit the Recent Outrage at Tis Juans.

San Direo, May 27.—[Special.]—Deputy Constable Thomas Weller was ar rested this afternoon on complaint of Charles Oberlander, charging him with kidnaping. The complaint was made before District Attorney Jones. Justice Dudley issued a warrant which was served by Constable Monahan. Weller was arraigned before Justice Dudley and admitted to ball in \$1000, which he furnished. The examination was

set for Tuesday afternoon at 2 o'clock.
This is another complication resulting from the arrest of Deputy United States Marshall A. W. Marsh, and Dep-uty Sheriff Thomas Smallcomb, May 12, charged by Edward Crosthwaite with kidnaping him. Readers of TEE TIMES will remember that Crosthwaite was arrested at Visalia about fifteen months ago by officers and taken to Tia Juana. Crosthwaite was left in charge of a Mexican named Doniciano Cruz, who, he claimed, kidnaped him into Mexico with the assistance of three rurales. He was confined in Ensinida jail eleven months. After his release he came to this city and swore to a complaint against Marsh and Smallcomb. About a month ago a warrant was issued for the arrest of Cruz and given to Ober ander, who is a deputy constable of National City. Ober-lander went to Rosario in Lower California on other business. On his re-turn he was arrested at the line and

imprisoned. The story of his subsequent escape, recapture and final discharge by Judge Rendon Thursday is still fresh in the minds of readers of The Times. Yesterday Oberlander appeared before the District Attorney and stated that Weller had entered into a conspiracy with Joaquin Fuentes, the po-liceman who arrested Oberlander, for his arrest while on Mexican territory, Oberlander claims that Weller notified Oberlander claims that Weller notified Fuentes that he was going below the line and that the Cruz warrant would be found in his possession and would justify an arrest on the ground that he had attempted to serve it on Mexican soil. The District Attorney claims to be in possession of sufficient eyidence to convict Weller.

The latter says that he can prove his innocence. He has been an officer here a number of years.

The defendant, after hearing the verdict in his favor, invited the jury and attorneys to an elaborate banquet at the hotel. Judge Woolson, when he had the jury before him, reprimanded them severely and then discharged them. He also reprimanded Newton, and said that if he could he would set the verdict aside and put him on trial again. The matter has put him on trial again. The matter has created a great sensation here. Portugal-Other News from

LONDON, May 27.—[Copyright, 1892, by the New York Associated Press.] The Cabinet council was convened today for the special purpose of determin-ing the date of the dissolution of Parliament. The bulk of the Conservative election agents were of the opinion that it is urgently necessary to dissolve Parliament within a month, as was the case with the Unionist members. Prior to the council a number of mem-bers had an interview with Balfour and impressed upon him the necessity of settling the question without delay. The almost unanimous representations which were made advised that the dis-Solution either take place at the end of June or be postponed until the spring of

1883.

The tenor of the communications made after the council adjourned indicates the decision of the government to proceed with the Irish Local Government Bull and an abandonment of the intention to resort to a dissolution. Butfour promised a definite declaration on the evening of the Whitsuntide adjournment. The decision will enrage the opposition, who, without delay, will resort to every device to obstruct government business; but a majority of the Unionists will approve it, though it will embarrass many.

the Unionists will approve it, though it will embarrass many.

If the Conservative anticipations of tonight be fulfilled, no Gladstone government will be possible till the end of the spring of 1893 and no home rule till 1894, while Balfour's local government measure, having a clear year to operate, must complicate Gladstone's task in creating a new Irish administration.

ion of Faith Adopted and the Overtures Sent Down to the Presbyteries.

PORTLAND (Or.,) May 27.—[By the Associated Press.] The Presbyterian Assembly was again constituted a court today by the moderator. A resolution was introduced looking to the return of the Briggs case to the Presbytery of New York for a new trial. Amendments were offered slightly modifying this action, but with the same object in view. The parties to the appeal were allowed to withdraw in order to prepare a form of action which might mutually acceptable.

Pending this action the reading of the report on revision of the Confession of Faith was proceded with. Just before the closing of the reading of the revision report, the parties to the ap-peal returned from their consultation and the revision went over as unfin-

and the revision went over as unfinished business.

Judge Struvell stated that there had been no agreement reached, and the moderator then ruled that as the committee of the prosecution refuses to agree to the propositions suggested and to allow the case to go back at once to New York, the Assembly must hear the appeal. The hearing went over till 2 p.m.

At the opening of the afternoon session it was voted to hold an evening session. Dr. Burch for the prosecuting committee then took the floor and traversed the six grounds of appeal and

A CYCLONE

Death and Destruction at Wellington, Kan.

The Destroyer Demolishes Every thing in its Path.

Great Number Injured. Fire Breaks Out Among the Ruins-The Town in Darkness and Confusion Property Losses Will Be

Thirty or More Persons Killed-A

Very Heavy. By Telegraph to The Times.

KANSAS CITY, May 27.—[By the Associated Press.] The Journal's special from Wellington, Kan., says that a cy-clone tonight plowed through the busness part of the town with immense destruction to property and some loss of life; just how much it is impossible

to tell at this writing.

A heavy storm of wind preceded the cyclone about half an hour. A few minutes after 9 o'clock the cyclone struck the city, coming from the south-Washington avenue, the principal business street, is lined on sides for blocks with ruins. To add to the horror fire broke out among the débris of Robinson's Block and Mrs. Susan Asher is supposed to have perished in the flames. The solid block of brick buildings, containing half a dozen stores and printing offices, lies in a tumbled heap. Just across the street a laborer named Fanning was taken out of the ruins dead. It is thought other bodies are in the pile.

Hundreds of dwellings were either

totally destroyed or more or less dam-aged. The city is in darkness, as broken mains made it necessary to shut down the gas works and save destruc-tion by fire.

Hon, James Lawrence, Walter For-sythe and Ed Forsythe were danger-

ously injured.

Seven bodies have been taken out of the Phillips House ruins and a large force is at work removing the débris. Two members of the Salvation Army are ex-

members of the Salvation Army are expected to die from injuries received.

At 'Squire Smith's residence seven persons were more or less injured.

The streets are littered with tin roofing, cloth, awnings and timber. Everybocy is on the streets carrying lanterns. It is utterly impossible to get at the exact facts. The destruction is simply awful, and every minute adds to the horror of the situation. The Standard and Mail office was wrecked. The operahouse and dozens of the best business buildings were destroyed. Fine school buildings and churches were ruined, and the loss will foot up to many thousands of dollars.

No reports are received from other points. Wellington is the county seat of Sumner county and has a population of over 10,000 inhabitants. It is the center of a thickly settled agricultural district.

THIRTY KILLED

The Death List Growing—Full Extent of the Disaster Unknown. KANSAS CITY, May 27.—[By the Associated Press.] A Times special from Wellington, Kan., says that the cyclone was terribly destructive. At 11 o'clock fifteen persons are known to have been killed, and an investigation of the wrecked buildings has only barely com-menced. The cyclone did not do much damage until it reached the center of the town. On Jefferson avenue it destroyed the Lutheran Church. Furious work was done within the pass of the four squares bor

by Jefferson avenue, Avenue C and Seventh and Ninth streets. Every building in those two squares was demolished or wrecked. Fortunately residences in that locality were not numerous, otherwise the loss of life would have been much greater. of life would have been much greater.
The Phillips Hotel was demolished
and seven dead bodies were taken from
the ruins. The work of rescue there has
only begun. The house was well filled
with guests and the loss of life is

thought to be great.

The destruction in the northeast part of the city was great, but definite de-tails cannot now be had. Great con-fusion prevails everywhere. Silva and Walter Forsythe were taken out of the ruins of Conrad's restaurant and have since died. Grand Army Hall has been converted into a hospital, and there are now there fifty dead or injured. The latest estimates are that fully

or less injured.

WEILINGTON (Kan.,) May 28.—The following is a list of the killed at 2:80 this (Saturday) morning: Frank D. Campbell, James Hastie, Leonard Adamson, Ida Jones, Mrs. Sasher and her sister Kittle Strahn, Prof. Mayer and Hort Upson.

Missing and probably killed: Lieut. Wm. French and Cadet Samms of the Salvation Army, Mrs. Murphy and a child named Mattle Hodges.

Badly injured: Charles Stoner, Guy Colby, Dick Weaver, Carrie Mitchell and Ed Forsythe. Each received inor less injured.

thirty are dead and perhaps 100 more

Badly injured: Charles Stoner, Guy Colby, Dick Weaver, Carrie Mitchell and Ed Forsythe. Each received injuries more or less serious.

The streets are impassable and nothing but ruin exists everywhere. At least fifteen bodies have already been taken out of the ruins and some less than seventy-five are injured. Men are working everywhere trying to rescue the imprisoned ones. No one can new realize the extent of the catastrophe and daylight will alone reveal the saddest scene of ruin and desolation ever witnessed in Southern Kansas. The Cole & Robinson Block ruins took fire and strennous efforts are being made to rescue people known to be buried there.

Two Hundred Buildings Destroyed.
St. Louis, May 28.—The Globe-Democrat's Wellington special says that the loss by the cyclone will aggregate \$500,000. Two hundred buildings were destroyed. The house of Squire Smith was leveled and several members of the household mangled, probably fatally. A fire at this hour (5 a.m.) 15 still raging.

ne Misunderstanding Explained and Steps Taken to Straighten Out the ers and the Per

The Park Commissioners met yester-day afternoon with President Hubbell in the chair, and Commissioners Kays and Hutton present. Secretary Howard and Superintendent Temlinson were

also in attendance. After the approval of the usual demands, a delegation from Boyle Heights was heard in the matter of the Hollenbeck-Workman Park.

In answer, to the inquiry why work had not been commenced on this park, and for an explanation as to what had become of the appropriation made for that purpose, President Hubbell stated that a mistake had been made, and the board

a mistake had been made, and the board had not been notified as to the Hollenbeck Park matter until after the money appropriated for park purposes had been otherwise expended, and there is no money for this purpose.

Commissioner Hutton took the ground that the park is not a public park until it is absolutely deeded to the city. This property had not been deeded to the city, and until this is done he will not favor expending any money. The Council will have to expend \$10,000 and carry out the conditions of the donation before the property comes under the control of the Park Commissioners.

President Hubbell stated that the Council had undoubtedly intended to appropriate money for the Hollenbeck Park, and he favored expending the money, if it can be obtained from the Council. There were no funds on hand for this purpose, and consequently they could do nothing at this time.

A question was raised as to the water right, but this was satisfactorily and the control of the purpose, and consequently and the time.

could do nothing at this time.

A question was raised as to the water right, but this was satisfactorily answered, and then objection was made to the Boyle-avenue dam, it being stated that it is not strong enough for dam purposes. This point was argued at some length, but nothing of a satisfactory nature was arrived at, when President Hubbell again reiterated the opinion that work should be commenced, if money could be obtained.

Commissioner Hutton again referred

· Commissioner Hutton again referred to the "terrible conditions" imposed by the deeds.
At this point Councilman Rees came in and asked Mr. Hutton to explain what he meant by "terrible conditions,"

when the gentleman replied that it required the expenditure of \$10,000 in two years.

Mr. Rees replied that he did not see anything so terrible in these conditions.

All the commissioners had to do is to carry out the instructions of the Coun cil and expend the money appropriated

carry out the instructions of the Council and expend the money appropriated for this park.

There was some talk between Mr. Hutton and Mr. Rees, the former contending that no appropriation had been made for this specific purpose, while the latter contended that it had been done, and that the records of the Council showed that such is the case.

President Hubbell then sprung the proposition that it would be cheaper for the city to purchase a lot outright than to accept this gift and develop it. He stated that a thirty-five acre tract suitable for park purposes could be purchased for \$10,000.

Councilman Rees then explained the situation, and the conference that had taken place between the Park Commissioners and the Councilmen, as a result of which an understanding was arrived at by which the Council was requested to segregate the fund, and express their preferences, which they had done.

President Hubbell favored expending the money at once, if it can be done, and, after further talk, on mo-

President Hubbell favored expending the money at once, if it can be done, and, after further talk, on motion of Commissioner Kays, the secretary was instructed to send a communication to the Council asking whether it was their intention to have the Park Commissioners act as their agents in expending the \$5000 under the conditions of the deed donating this property.

property.

The Boyle Heights delegation left and routine business was taken up. A communication was received from the Council calling attention to the bad condition of the sidewalk at Sixth Street Park and asking that it be repaired; also stating that Westlake Park is being neglected. The Superintendent of Parks was instructed to look into the matter.

After some further general talk the

The meeting of the Los Angeles County World's Fair Committee was held in the rooms of the Los Angeles Chamber of Commerce yesterday, Charles Forrester occuping the chair and Frank Wiggins acting as secretary. Messrs. Wells, Klokke, Teale, Lukens Mosher and Vawter were the other

members present.
Mrs. Lansingh appeared before the committee as a representative of the Ladies' Annex, with illustrations of the orange-wood bedroom set that the ladies wish to have made and exhibited at the World's Fair in the Ladies' De-partment as illustrating woman's work in this country. She also gave a report of the progress made in their silk cul-ture undertaking, and stated that they were in need of financial assistance to carry on both projects. The matter was taken under advisement and re-ferred to Mrs. Cole, who represents the commission on woman's work from this district.

The other committees reperted favorable progress.

There appearing to be no Committee on Curios, the Chair appointed a cemmittee to act in this capacity, consisting of T. P. Lukens, C. M. Wells and E. F. C. Klokke. Mr. Lukens reported that if proper pretection could be guaranteed, he could furulsh one of the largest collections of Indian baskets, curios, etc., ever exhibited from this State. It was then moved and carried that the committee be empowered to receive bids for making cases wherein to make the curio display, and also ascertain what would be the expense of caring for the same during the Exposition.

A communication was received from a taxidermist offering to sell the com-mittee a collection of California birds. The matter was referred to the Committee on Curios, who reported that there was a collection of birds at Pasadena that would probably be placed on exhibition at Chicago, that would fully illustrate the different species of Cali-

The Ulrich plan of court display of citrus fruit trees and shrubs was accepted, provided the committee can substitute a few trees and palms for those he mentions the committee is not

able to furnish.

A letter was read from Mr. Samuels asking the committee to name the amount of space Los Angeles county would require in the Horticultural building for viticulture, fruits, flowers, etc. As the applications for these displays are so few it was thought best to await the action of the Southern California Association and trust to them to engage sufficient space for all the counties in the association. ties in the association.

ties in the association.

All the exhibits promised thus far seem to be for the State building. Unless some more decided effort is made southern California will be very poorly represented in the Horticultural department building.

Mr. Lukens moved that the producers of the county be called to meet with the different committees under the exhibit classifications, and see what could be done toward waking up more interest in World's Fair matters.

The same was duly carried, and the

ST. JOHN'S EPISCOPAL CHURCH.

Handsome Improvements in this Cosy Lit-tie House of Worship. The new chancel of St. John's Church, corner of Adams and Figueroa streets, will be formally opened for divine ser vice on Sunday morning. It is a great addition to the beauty of the building, and adds largely to the seating capacity of the church. Separating the nav of the church from the chancel is a wood screen of unique design, surmounted by a cross, having a cherub's head in bronze at the base of the shaft. The choir platform is raised eighteen inches above the floor, and the sanctuary and altar are elevated each an additional step. Some very handsome interior decorating will be done by Mr. Garibaldi, the well-known New York artist, which will give St. John's the most artistic interior of any church in Los Angeles. The sanctuary is in the form of an apse. On the north side is the vestry and rector's study. It is reported that the new vested choir will render the music next Sunday for the first time. A confirmation will be held on Sunday evening, June 5, by Rt. Rev. Bishop Nichols, D.D. head in bronze at the base of the shaft.

TEN DOLLARS REWARD. In consequence of the many compisitute of the thete of THE TIMES from its subscribers in this city, we will pay for the next sixty days a reward of \$10 for the arrest and conviction of any of the offenders.

Tetalleading cit-ies in U. S. ..., \$1,146,805,698 12.1 During the twelve months ending April 30 last there were 176 new national banks with a combined capital of \$17,130,000 organized in the United States. Texas contributed 21 out of the total named, with a combined capital of \$1,370,000. Illinois stands second, having furnished 8 of the new banks, with a combined capital of \$2,630,000 or twice the amount represented by the 21 new banks in Texas. In the latter State these latter organizations averaged \$62,400 paid-up capital, while in Illinois they averaged about \$330,000.

The carload of Eastern eggs, which came in early in the week, was sold off rapidly at prices very near the figures paid for fresh ranch eggs.

Los Angeles Back in Second Place and Close Pushed by San Francisco—
Standing of the Western and National Leagues.

All that is lacking in the California League to make the race an exciring one is for Oakland to strike a winning gait. The club is now a strong one and it ought to begin to show up very soon. The Angels dropped from first to second place again with one less vi tory and one more deteat than San José, while Esan Francisco has mored up toward the leaders, its string now containing two less victories and two more defeats than Los Angeles. The Dukes are great home-winne s. and it is not unlikity that at the end of the series in San José March Compuny to D. Teague, 1.3 Rep will be several games to the good. The terrible drubbing received by the Angels on Wednesday can only be accounted for by the fact that they arrived in San Francisco only a couple oball. The silly statement that the san interest of the pound for by the fact that they arrived in San Francisco only a couple for our before the game was called and were hardly in condition to put up good ball. The silly statement that Balsz was pitching for his release does the anxious to play out the season opened. The club has been winning by good, steady team work, seldom outbatting its opponents. It was picked for a winner before the season opened. The club has been winning by good, steady team work, seldom outbatting its opponents. poor Baltimore has never been in the race at all. Neither has the team sailing under the colors of Chris Von der Ahe, "der boss captain."

The Western League was gotten up on Frank Richter's "millennium plan."
That is, all the players for the whole League were signed by one man—Secretary Williams—and were bunched off by a committee into eight clubs which were to be as nearly equal in playing strength as it would be possible to make them. It was supposed that the eight clubs would run along throughout the season pretty close together, but the present standing of the clubs does not seem to warrant the predictions made by the promoters of the scheme. However, rain has se far interfered with about one-half of the scheduled games and a fair trial the scheduled games and a fair trial has not yet been given it. The water situation iff the hills section shows further improvement, and should the company have good luck and not meet with any accidents it is hoped that no further trouble will arise. Re ceiver Kays was interviewed by a Times reporter vesterday, when that gentle-man stated that it is a mistake to sup pose that the hills are without protec-tion from fire. The reservoirs of his company in the city, he said, are almost full, containing about 8,000,000 gal-lons, about one week's supply of water, and there is plenty for all uses except on a few streets near the extremities of the system, and most of them have plenty for domestic use.

The company, I understand, is and has been trying to secure water from some other source at a sufficient elevation to do away with all pumping and to put all the system under a go pressure; but this all takes time money, and the greater the disturbance the longer it will take to procure the money to do the necessary work. Criminal Notes.

Capt. Diehl, chief of the Buffalo de tective force, is still in the city await-ing his papers to take Bryant B. Crandall back to Buffalo. The papers will arrive from Sacramento today or tomorrow

Crandall took a new tack yesterday and is again playing the sick dodge. He most likely has an idea that he car deceive the authorities to such an ex tent that they will be afraid to start him east. He was examined by a medical gentleman yesterday and pronounced in fairly good health. He has a combination of diseases which will probably take him off in a few years, but at present he is perfectly able to travel and it is believed that a change of climate will do him good. ANOTHER WOMAN

Sensational features are springing up Sensational features are springing up in this case every day, and when the whole matter is thoroughly investigated, the most sensational dime novels ever written will not be in it. While Crandall has made Los Angeles his general headquarters since 1887, he has not been idle by any manner of means in other sections of the country, and as the various escapades of this singular man are unraveled, it is evident that he has played sad havoe with more than has played sad havoe with more than one female heart since he bid farewell

to his Buffalo wife.

His latest flame is called Mrs. Lillie
Howland, but who and what she is has been kept a profound secret up to cate, and it was only by accident that her engthy dispatch was recieved in this city by a prominent railroad man from a Buffalo paper yesterday morning, ask-ing him to look up Mrs. L. Howland, who identified Crandall, and send a full description of her, and also to dig her record up as far back as possible.

As no such woman has identified

Crandall, or even visited him so far as is known to Chief Glass, it is hard to tell what the Buffalo paper is driving at. The railroad man did not succeed in locating Mrs. Howland yesterday, but the detectives are looking her up, and if she is found she will be given an opportunity to explain her connection with the man. AT ENSENADA

It now transpires that Crandall lived in Ensenada, Lower California, five years ago. He was tocated by Deputy Constable Harry Johnson, who was afte Gormley, and was positively identified at that time, but the officers did not think it worth while to kidnap him, and nothing was done. At that time Cran-dall did not deny that he was wanted in Buffalo, but he felt safe while out of the United States, and snapped his fingers in the faces of the officers. He declared that he would never return to this country, but it is apposed that his affection for some words in or near Los Angeles drew him back. At any rate he returned a year later and has kept himself in seclusion at Newhall almost ever since.

Mrs. Wilson called at the central station several times and brought Cran-

The "Ah Ach Em Gow" referred to as a Chicago commission man who is handling all Chinese vegetables from this section is known in that city as Mr. N. W. HER PAPA OBJECTED.

A Young Lady Who Will Not Go or the Stage Just Yet.

Miss Lemmert Was to Have Made Har ional Debut in This City, but the Engagement Was Broken off.

T. F. Lemmert, proprietor of the Figueroa Hotel, was not in the best possible humor when he visited one of the hotels yesterday morning and asked ager of the Louis XI Company, that is o appear in this city next week. Mr Lemmert's eyes were snapping fire at the rate of forty sparks a second when the manager tripped lightly down stairs in answer to a call from the bell boy, and the most casual observer could see that there was trouble brewing

observations, and just as he was about to advance his right hand in token of friendly introduction he suddenly changed his mind and placed himself o the defensive. In an ice-like tone of voice Mr. Lemmert asked for a private interview, and the gossips who had gathered around expecting to hear something rich slunk off.

What Mr. Lemmert said to the show man remains a secret, but that both gentlemen became very angry there is no doubt, for when they again ap-peared in public both faces wore a troubled look and they parted without even a nod of the head.

Later in the day the cause of this meeting leaked out, and as near as can be learned, Mr. Lemmert was perfectly justified in registering a vigorous kick. Some months ago Mr. Lemmert's pretty daughter, Miss Edith, joined the Owl Dramatic Club of this city, and she has appeared several times on the amateur stage and scored a big success each time. This success led her to believe that fortune and a great name awaited ner on the professional stage, and she decided to become a real actress. He was introduced to Manager Wyatt, of the Los Angeles Theater, and he informed of her desire to adopt the

stage as a profession.

Mr. Wyatt, who has had a long experience in this line, did all in his power to induce the young lady to give up all ideas of the stage. He painted to her the ups and downs of the life, and told her that not more than one girl in a her that not more than one girl in a hundred who adopts the stage succeeds and failure means a life of sorrow.

Miss Lemmert stated that she did not

come to him for advice. She said she had firmly determined to go on the stage, and if he could assist her well and good, but if not she would go to New York and do the best she could. At about this time Mr. Willmoth put in an appearance, and as he was anxious to secure a new lady for his company on account of the sickness of his wife, who has been playing in Louis XI, he had an interview with Miss Lemmert, and soon became convinced that she and soon became convinced that he could fill the part. She was engaged at a salary of \$50 a week, and was to make her first appearance in this city,

and if she proved a success go on with the company. Miss Lemmert was given the part to study, and was told when the first rehearsal would take place. Thinking he had made all necessary arrangements, Mr. Willmoth went about his business and thought nothing more of the matter until yesterday morning, when Mr. Lemmert called on him at his hotel and returned the part. Mr. Lemmert said he had not been consulted in the matter, and wanted to consulted in the matter, and wanted to know how any manager dare engage his daughter without first seeing him.

Mr. Wilmoth replied that he believed Miss Lemmert to be of age and fully competent to decide for herself. After considerable wrangling Mr. Lemmert withdrew and the manager started out o find another actress.

Miss Foster, who has also played with the Owls, was soon located, and in a couple of hours she was studying the part that Miss Lemmert was to have played. MR. LEMMERT TALKS.

Mr. Lemmert was seen last night regarding the matter and stated that regarding the matter and stated that his daughter is too young to go on the stage. She is not yet of age, but his principal objection is on account of his ignorance of the company she wished to join. He knows absolutely nothing about the people, and his daughter was deceived when she was induced to take the part for study. There are only a few people in the company, and they expect to secure the services of the leading amateurs of this city to fill up the cast. They are here now and have induced several members of the Owl Club to join them.

Club to join them.

He says he had no trouble with the manager. He simply called on him at his hotel and told him that his daughter his hotel and told him that his daughter could not take the part. The man threatened to hold Miss Lemmert to her promise to play for a week in this city, but Mr. Lemmert is not afraid of trouble. If his daughter is determined to adopt the stage he will consent at the proper time, but he will not allow her to join a company he knows nothing about

WASHINGTON, May 27.—[By the Associated Press.] The silver convention ciated Press. The silver convention met again this morning. Addresses were made by Shinn, of Kansas, and P. K. Thomas of Pennsylvania. The latter said that ten years ago his farm was worth \$10,000. By the labor of himself and family he had been able to save \$500 a year since. But his farm had continually depreciated in value and was now worth only \$5000. This shrinkers he said, was due entirely to shrinkage, he said, was due entirely to a pernicious financial system, operated

shrinkage, he said, was due entirely to a pernicious financial system, operated in the interest of money-lenders, corporations and monopolies. He denounced both political parties, and said that rather than vote for Cleveland with his free trade ideas, he would vote for Queen Victoria for President and, rather than vote with that hypocritical, weak-kneed, Republican party, he would vote for Cleveland.

Merrick of Colorado explained the constitutional point in the case recently decided by the Supreme Court of the District of Columbia against the application for a mandamus to compel the Secretary of the Treasury to receive and coin the silver brick tendered him.

E. D. Start of Ohio read a long paper upon the general subject of silver in which he expressed himself as having no confidence in the proposed international conference.

Morton Frewen, a well-known coinage writer of England, spoke. Personally, he said, he would prefer to see the free coinage of silver brought about by an international agreement; yet he had no doubt America could restore silver to its old place without the least danger of sending gold to a premium, and in that even he did not believe any silver of consequence would come from Europe to be exchanged for gold.

Frewen hoped this Government would insist upon the proposed conference being held in London. During the last twenty years bimetallism has been gaining friends in England till now it is one of the greatest issues and has among its earnest friends at least 100 members of Parliament and a great proportion of members of the London Exchange. The silver friends at least 100 members of Parliament and a great proportion of members of the London Exchange. The silver wave is sweeping over England and the general cause will be greatly advanced by holding in her capital this international conference.

At the evening session the Committee on Resolutions reported the following preamble and resolutions, which were unanimously adopted:

WHEREAS, with a single gold standard.

The report of the Committee on Or-

ganization recommends the formation of a national bimetallic league, whose object shall be to resist the purpose to fasten on this country the gold standard, and to labor for the restoration of free bimetallic coinage. The league will hold its first annual meeting in Washington on the 22d of February next, and there will be such other meetings as the executive committees may call. The committee is authorized to organize subordinate leagues in every voting precinct in the country.

by taking up Mr. Stewart's bill for the free coinage of gold and silver. This bill now occupies the point of vantage as unfinished business, and that position it may occupy for an indefinite period. Mr. Morgan's resolution on the subject of currency stood at the head of the subjects to be taken up under rule 8, so the question of silver had the precedence today over every other subject, but Mr. Morgan voluntarily adandoned his right and consented to have his resolution laid aside without action. The calendar was then taken up.

The above are two fac similes of many REWARDS OF MERIT or DIPLOMAS of PROFES SIONAL SKILL which have from time to time been awarded to the CELEBRATED CHINESE PHYSICIAN, DR. WONG, for his superior medical abilities and curative powers.

It has long been customary among the Chinese people when one becomes sick and when repeated attempts to cure him have failed, and he is perhaps given up to die, it, after having bren taken to an eminent physician, he be cured of his disease—the cured, too in addition to the regular fee for professional services rendered, makes the physician a present as a token of gratitude for his restoration to health and the prolengation of his life. This present consists usually of a broad plank, presenting much the appearance of a sign-board, filled with character entirely meaningless to the average English scholar, but full of meaning to the successful physician and his friends. It is a motto which highly compliments the physician for his great still in effecting a cure of the disease which once afflicted the donor.

It is not an uncommon thing to see a great number of these COMPLIMENTARY DIPLOMAS adorning the office walls of Chinese physicians in their native country, and indeed a number of the most successful ones in this country are the happy possessors of a few of these high tokens of very uperior medical ability.

AS FAR AS POSSIBLE We ask laboring men and their families to do their trading

during the day. It is in recognition of the laboring man's rights that we close Saturday nights at 6 o'clock. It gives our employees shorter hours and more rest. It is due them. We get more work, better work and a much better feeling by closing at 6 p.m. All the employees in this city are in hearty sympathy with the early-closing movement. Employees are most generally in sympathy with the head of the house provided good treatment is given. When a house gives encouragement to impudence and impertinence to their employees by ridiculing a house that goes out of the way to be polite, attentive and painstaking in waiting upon trade generally, employs people of the same kind. Our aim is to employ men and women that will carry out our ideas. These ideas are good treatment to all whether rich or poor, white or black; to return money on all goods if customers are not perfectly satisfied with their purchases. We believe in giving samples freely; we believe in giving the same attention to a sample customer as to a buyer; we believe in being courteous to all our competitors, and extend to them all the courte-sies of the business. There was a time we had employees in this house that did not carry out our wishes, but we know now we have the right kind of help, and we believe every one is going out of his way to give perfect satisfaction in every way. There is a bond of sympathy between the employer and the employee. We know that mistakes are made, but they are invariably rectified as soon as found out. This house is growing—growing more rapid, more substantial than any other house in the city. This is apparent to all. More is being done for the employees, more is being done for the patrons of this house. Hundreds will bear testimony to this fact. No impertinent remarks are allowed by any one in this house against competitors or their employees, and no remarks tolerated about customers. It is good will we are after, and we are receiving it from all quarters.

false pretenses, was called by Justice Stanton for preliminary examination.

The complainant, Horace' G. Miller, of the Southern California Loan and Investment Company, of this city, alleged in his complaint that on February 25 last Cooper called ut his office in the Stowell Block, and, representing himself as the owner of a number of sewing machines, stated that he wanted to borrow some money on them. After talking the matter over Miller promised to let him have \$500 on fifty of the matchines, which were to be turned over to

the company as security for the money. Accordingly Cooper turned over fifty machines, representing them to be in good working order, and received the money, but subsequently Miller ascertained that the machines were worthless and, as Cooper had left the city, a warrant was issued for his arrest on the 15th just, upon which he was brought back from Ventura a few days later.

It appearing, however, that Miller had examined and accepted the sewing machines as collateral before loaning the money on them, the District Attorney moved to dismiss the case on the ground that the evidence was insufficient to warrant the Court in holding the defendant to answer. Justice Stanton refused to grant the motion, unless the prosecuting witness paid the cost incurred, \$41.85; but upon the payment of this sum the defendant was discharged.

Recommend that the bid of U. G. Baldwin for grading the hill on the west city boundary between Sixth and Seventh streets, at \$898.50, be accepted, and the City Attorney instructed to draw a contract for the city to pay for one-half of said work and the supervisors to pay for the other one-half.

the supervisors to pay for the other one-half.

Recommend that the ordinance of intention to grade, curb, etc., Los Angeles street between Seventh and Twenty-third streets be placed on its passage.

In the matter of the petition from R. F. Taney, relating to storm water damaging his property on, the south side of Seventh street, we recommend that the City Engineer give the established grade of curbs at point referred to, to the Street Superintendent, so that the same can be raised to the official grade.

In the matter of the petition from Joseph Loughedet al., to have proceedings instituted for the opening of Boundary and Hoover streets to Jefferson street, we recommend that the City Engineer be instructed to furnish the City Attorney with a description of property to be taken for said opening, and that ordinance of intention be presented, and that the district of assessment be fixed to include lots frenting on said streets between Alvarado and Jefferson streets.

In the matter of proposals to grade and curb Hill street between First and Second streets, we recommend the acceptance of the bid of M. McGreal, for the sum of \$6.80 per front foot complete, and that the necessary resolution of award be adopted.

These gentlemen drew up the following paper, which abounds in patriotic sentiments that ought to be lived up to:

"It is with feelings of sorrow and regret that we notice a tendency on the part of a portion of our people to treat Decoration day as a day of joility and outdoor sports. That certainly was not the object of such patriots as the lamented Logan and others when they labored to have the 30th day of May in each year set apart as a national holiday, that the whole Nation might join with the surviving soldiers of the civil war in paying a simple yet beautiful and impressive tribute to the memories of those brave heroes whose lives were heroically yielded up for the maintenance of the country undivided.

"We who are yet survivors of the great conflict feel that the 30th day of May should not be spent in hilarity and joility, but rather in meditation and reflection, and the assistance of the whole people should be given to our order to make the ceremonies impressive that the object of inculcating lessons of patriotism in the minds of our young people may be made paramount to all others and instill in their young minds a love of country and adoration for our flag, which they may some time be called upon to defend with their lives.

"We, therefore, earnestly request and invite our whole people to unite with us upon

The flag presentation by the W. R. C., def mention of which was made yesterday, was a pleasant feature of the evening. The corps marched to the post rooms nearly 100 strong and took the veterans completely by surprise. Several members of Phil Kearney Camp, S. of V., accompanied the party. Mrs. Glendora Kyle made the presentation, and Commander Downing responded as well as his surprise would permit. Short speeches were made also by other omcers and members of the post. The flag is a silk one of considerable value. In addition to this generous gift, the corps presented the post with \$50 for the relief fund of the organization.

At 11 o'clock tomorrow morning a Memorial day sermon will be preached at the First Presbyterian church by the pastor, Rev. N. G. H. Fife. The post will attend in a body, and all members are requested to meet at the post rooms at 10 o'clock.

The work instituted here by Rev. B. Fay Mills is still carried on. Thursday after mails is still carried on. Thursday after-noon the prayer-meetings at the different churches were well attended, and at the union service in the evening the Tabernacle was comfortably filled. The sermon was preached by Rev. D. D. Hill, on the text: "How shall we escape if we neglect as "How shall we escape if we neglect so great a salvation?" A number arose afterward and testified to having found Christ, while ten persons expressed a desire to lead a Ohristian life. Prayer-meetings were held again yesterday afternoon and in the evening. meeting at the Tabernacle.

During Mr. Mills's meetings 474 persons signed cards signifying their desire to lead a Christian life. This does not include the cards signed at the Sunday schools the Sunday previous, which numbered at least 800. The cards have been distributed among the different churches, according to the preference indicated by the signer, and a large addition to the membership may be looked for on all sides.

While the paper possesses some peculiarities, it has a metro' politan make-up and does not differ so much in style or composition from the journals of today as one might suppose.

The Journal was then an ardent supporter of the Whig party. This particular issue contains a glowing account of the victory of the Whigs in the New York State elections of that year, and attacks President Yan Buren on every possible occasion. Several duels, which were quite the fashion those days, are recorded, only brief mention being made of each. The description of the hanging of a murderer is limited to one inch. Several advertisements appear offering rewards for the apprehension and return of escaped slaves. The Journal was then a weekly and did not enjoy much in the line of telegraphic or even mail facilities, as is evidenced by the following editorial: "We have no further intelligence from New York the latest was four days old.) PRIZE ORATORS.

Southern California Intercollegiat Oratorical Association Contest.

Thomas R. Warren, of Southern Californi University, Awarded First Prize and Percy Dillworth, of Occidental College, the Second.

A distinguishing feature of the crowd of people who climbed the stairs to Y. M.C.A. Hall last night was the fact that a large proportion of them carried flowers—elaborate bouquets and baskets, or simple clusters of roses and ferns. These floral offerings were designed to express approval of and adpeople who participated in the first con test of the Southern California Inter collegiate Oratorical Association. There collegiate Oratorical Association. There were enough people present to nearly fill the body of the main auditorium, and there was not a single careless listener there. The invocation was offered by Prof. Parkhill of Occidental College, and was followed by a vocal duet, Dudley Buck's "Dews of the Summer Night," exquisitely sung by Miss Maud Snook and Prof. F. A. Bacon. A magnificent basket of flowers was premagnificent basket of flowers was pre-sented to the young lady, while the gentleman, a martyr to custom's decree, could only appropriate his share of the applause. The next number was a declamation,

"Cataline's Defense," by H. W. Cummings. The young orator reproduced with vivid effect the scene of the disap-pointed Roman politician as he appeared before the Roman Senate in his own defense of the charge preferred against him by Cicero, for which he had been convicted and sentenced to banishment

A vocal solo by Miss Maude Roberts, "My Lady's Bower," was sung in a voice excelling in sweetness and purity

rather than power.

At this point in the programme the three orators who were to contest for the prizes took seats upon the platform, and one after the other gave their craticals.

The first speaker was David P. Barrows of Pomona College, and his ora-tion was one of the very best of the evening, both in delivery and rhetorical finish, though the judges awarded the prize to another, as is very apt to be the case in a contest of this character.

the case in a contest of this character. The next orator was Thomas R. Warren of the University of Southern California, whose subject was "One Man Power and Democracy." He demonstrated the fact that, while absolute power fosters slavery, democracy is its implacable enemy. The storm of applause and abundance of flowers showplause and abundance of nowers show-ered upon him at the close was proof of his popularity, as the oration, per se, would hardly call for such pronounced demonstration. The fact that he is a student in a local institution, and, therefore, had more personal friends in the audience probably accounts for this discrimination.

The last orator was H. Percy Dil-worth of the Occidental College and his theme was "The Character of Gen. Gordon," the man whose life record stands out so prominently in the drama of history and whose love for humanity and heroism stirred the profound admiration of the peoples of four continents. life—to turn from the error of his way and accept Christ. He who professes Christianity, but lives a wicked life, is a curse. The moralist who refuses to accept Christ openly, he described as an enemy to God. Yesterday morning the service was held in the Methodist Church with a good congregation and a number of ministers from neighboring towns. Mr. Mills chose for his text, "They first gave their own selves unto the Lord." The discourse was an earnest plea for full consecration of professing Christians to the Christian life. His sermon was full of illustrations from every walk in life, appealing to the sympathies of the hearers.

The decision of Judge W. B. Cope of Santa

This suit was begun three years ago, and was brought by Bustamente and a lot of Mexicans to set aside deeds made by them of property to P. J. Stockman. Judge Cope gives it as his opinion that the stipulation in judgment was caused by fraud or unwarranted action of the attorneys who signed the stipulations, and that there is no evidence of fraud between Robinson, Stockman and Harris, and in conclusion that the judgment shall not be disturbed.

Meeting of the Los Angeles County Farmers' Institute.

An Address on the Nicaragua Canal by Hon. W. L. Merry of San Francisco . - A Subject of Importance to

The Farmers' Institute convened in this city yesterday morning. The attendance was large, and much interest was manifested in the proccedings. The printed programme was carried out, and much information of importance to fruit.growers and farmers generally, was brought out. The part of the programme in which the whole State is interested, was the discussion of the programme of the programme. sion of the Nicaragua Canal. Hon. W. L Merry, ex-president of the Chamber of Commerce, San Francisco, addressed the institute. He thanked the ladies and gentlemen for their presence, and went at once to his subject. He said that the completion to his subject. He said that the discrete from a common sense standpoint, and for California, Oregon and Washing ton in particular, the cost of transportation by water was in the ratio of portation by water was in the ratio of one to ten as compared to the rail and in some cases in California and ton in particular, the cost of transportation by water was in the ratio of one to ten as compared to the railroads, and in some cases in Californian the ratio of one to twenty. The reason was obvious. No investment was required by water in constructing and keeping up roadbeds and other appliances. The high seas are free to all. At present the distance by water from California to markets of the world is farther than that of any civilized nation, 2200 miles by sea to Liverpool. By sea we are 15,000 miles from the markets. Outside of the East and Europe we have no markets, practically. It is cheaper to ship produce from Australia, New Zealand, Queensland to Liverpool than for us to land produce East by rail. Fresh mutton has been shipped from Australia, Glasgow, Scotland, and sold for 6 cents per pound, in refrigerator vessels in which the temperature was kept at 26° Fahrenheit. Fruit could be shipped around Cape Horn at a temperature of irom 36° to 38°. At this very time, when our fruits and field crops are being gathered, European markets are bare, and with the completion of the canal we could reach Europe in from twenty-five to twenty-six days, and by fast steamers in from fourteen to fifteen days. The distance would be lessened 11,000 miles from California points to the East, and the distance to Liverpool lessened 10,000 miles, and other points in proportion. With a good market for our fruits and vegetables, over-production would be simply impossible. The distance to New Orleans and the Mississippi would also be lessened 11,000 miles. The construction of the canal is a certainty. It is only a question of who will own it. It would be lessened 11,000 miles. The construction of the canal is a certainty. It is only a question of who will own it. It would be a disgrace for any other country to own it than America. There has already been spent the sum of \$5,000,000, and they are now spending the sum of \$50,000 every month. It will cost \$100,000,000 to build the canal, and there is a bill before the Senate which considers the proposition of subscribing to seven-tenths of the stock, or \$70,000,000.

SANTA ANA.

Several weeks ago the sewer and park question for the city of Santa Ana was thoroughly discussed by the local press and steps were then taken looking toward the establishment of a park near the Santa F6 depot on East Fourth street. While the press has taken a breathing spell on the subject the past week or ten days, a correspondence has been kept up between public-spirited citizens and the railroad company, which has finally resulted in the following call for a mass-meeting being made. Believing that the establishment of a public park upon the grounds adjacent to the Santa F6 depot in Santa Ana is of great importance, we the undersigned citizens of Santa Ana do hereby call a public meeting, to be held in Spurgeon's Hall Saturday evening, May 28, 1892, at 7:30 o'clock sharp, for the purpose of organizing, to cooperate with the owners of the property that shall be devoted to that purpose, and of effectually werking together to bring about this much desired improvement.

Signed by W. H. Spurgeon, D. M. Baker, H. N. Short, F. A. Jones, G. A. Edgar, W. K. James, N. Palmer, D. Halladay, B. G. Balcom, J. A. Turner, R. F. Chilton, J. R. Porter, C. C. Collins, E. A. SHOOTING AT A CHARLVARI. SHOOTING AT A CHARIFARI.

The vicinity of Newport Store was thrown into a fever of excitement about 3 o'clock yesterday morning by a shooting scrape which occurred at a charivari party. W. S. Woodruff and Miss Nancy E. Ellis were married the previous day and the young and old folk of the neighborhood had assembled in the eventual to the charity to celebrate the occasion by the riverse of the charity of the contract of the cont rious day and the young and old folk of the neighborhood had assembled in the evening to celebrate the occasion by the ringing of bells, blowing of horns, rattle of tin cans, etc. Late in the evening, or rather early in the morning, several of the men had drank to the health of the wedded pair foof frequently and had become quite bolsterous. During the joilification John Ellis and Joe Lynch Indulged in an altercation and soon Ellis drew his revolver and fired at Lynch. the ball taking effect in the victim's thigh. The crowd, alarmed at the turn of affaisr, dispersed immediately. Constable Robinson, armed with a warrant, went to Newport Store yesterday morning, but Ellis saw the office coming and made good his escape in the willows. A watch is being made for him and his arrest is likely to be made any hour.

WHY Royal Baking Powder is Best.

"The Royal Baking Powder is absolutely pure, for I have so found it in many tests made both for that company and the United States Government.

"I will go still further and state that because of the facilities that company have for obtaining perfectly pure cream of tartar, and for other reasons dependent upon the proper proportions of the same, and the method of its preparation,

> "the Royal Baking Powder is undoubtedly the Purest and most reliable baking powder offered to the public.

> > "HENRY A. MOTT, PH. D." Late United States Government Chemish

The following extract is taken from a private letter dated Minneapolis, Minn., May 20, 1892, written by a prominent capitalist and attorney, who formerly resided in Los Angeles and still holds property interests here:

property interests here:

We are having a very discouraging spring. Rain and floods everywhere. A mild bliszard blew all last night, and several inches of snow fell this morning. The old settlers try to recall some spring like it in the long ago, but can't do it. Not more than half of the seeding has been done. The Tribune says editorially this merning that this country will have to rely on last year's crop for this year's bread. I see the Paciac Ceast is not the only section that has drawbacks, property depreciation and occasional hard times.
